

# ENROLL US

We Want to Be a Partner in EPA's  
National Partnership for Environmental Priorities

## IDENTIFYING INFORMATION

Name of Organization: R3 Environmental Management, Inc.  
Principal Contact: Alan E. Kalmar  
Authorizing Official: \_\_\_\_\_  
Address: 1050 East Chicago Street  
Phone/Fax: (847) 488-1492 / (847) 488- 1494  
EPA RCRA ID Number: N/A

Facility Name: same  
Title: Operations Manager  
Title: \_\_\_\_\_  
City/State/Zip: Elgin, IL 60120  
Email: aeKr3@aol.com  
Date: 10/10/06

## PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Mercury **CASRN:** 7439-97-6

**Narrative description of proposed project:** As part of the school clean-up program, R3 packages and disposes of unwanted, unused, and outdated chemicals at secondary and high school facilities throughout the states of Illinois, Wisconsin, and Michigan. By focusing on outdated school chemical inventories, our program can persuade administrators to reduce potentially hazardous chemicals, especially mercury and mercury-based compounds.

**How we will measure success:** \_\_\_\_\_  
We will measure success by tracking and recording the amount of mercury removed from facilities.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 3,500 pounds in June, 2005 (month/year) to a reduced amount of 0 pounds generated/used by June, 2007 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

<input type="checkbox"/> Equipment or technology modifications.	<input type="checkbox"/> Process or procedure modifications.
<input type="checkbox"/> Reformulation or redesign of products.	<input type="checkbox"/> Substitution of less toxic raw materials.
<input type="checkbox"/> Improvements in inventory control.	<input type="checkbox"/> Improvements in maintenance/housekeeping practices.
<input type="checkbox"/> Other (describe): _____	

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

<input type="checkbox"/> Direct use/reuse in a process to make a product.
<input checked="" type="checkbox"/> Processing the waste to recover or regenerate a usable product.
<input type="checkbox"/> Using/reusing waste as a substitute for a commercial product.
<input checked="" type="checkbox"/> Other (describe): <u>Removal and recycling of elemental mercury/MCE.</u>

3. We have a Quality Assurance/Quality Control Plan for data (check which applies). ☒ Yes ☐ No

Please use supplemental sheets for additional goals.
